

# Social Media Investigation

**Find all the social media posts and figure out the answers to all these questions!**

1. What University did they attend?
2. When is their Birthday?
3. What street did they grow up on?
4. What is the name of their cat?
5. What are some of their hobbies?

**Tip:** Look at the image, caption, date and tags of each post!

**Which username do you think might belong to them now that we have this info?**

SkiGirl

HarvardAlumni

Booklover98

DungeonQueen97

**Show a tutor the right answers to get the next instruction sheet!**

# Phishing Email Attack!

We know that they have 5 passwords that they use for most of their accounts online. We've made a fake Meme Exchange to try and steal their passwords!

You need to write a phishing email that will trick them into clicking on our fake login page and giving us their passwords!

When you think you've come up with a good email, bring it up to the front and if it's phishy enough you'll get the 5 possible passwords back!

# Password Hint

Here are the 5 possible passwords!

Password98  
NamastYAY01  
21041998  
EmmyFurBaby123  
SweetTooth21

Now let's figure out which one is the one we need!

Luckily, the website we're hacking into will give us a password hint!  
They have tried to be more secure by encrypting their hint but we know you can crack it!

-... .- -... -.-- / -... --- -.--

Once you've got both the username and password, come up to the front to crack into the website
